

STARTS WORKING
DAY 1

BECAUSE WAITING 2 WEEKS TO WORK...

...is just plain lazy.

Silo Guard II is available
as a dry granular product
or new ready-to-use liquid.

"My silage has a better color and smell than
with previous products. Since using Silo Guard,
my silage tests higher in RFV and other quality
factors. I am getting better bunk stability."

Volcani Research Center

"This is the first bag of fermented forage that we've opened that has ZERO spoilage. It smells fresh and looks just like when we filled the bag."

- Chris & Jeremy, MI

"Our haylage feeds better, we have better bunk life, and the cows get more out of it... Our high moisture corn never got hot. Period."

- Bob, OH

"Feed is cooler coming out of the silo; fresh as the day it was put in!"

- Sam, WI
